
KeyMacro allows you to define custom key combinations for Nero Burning ROM. You can create macros to operate Nero commands or to play and stop multimedia files. KeyMacro is a modern successor of NeroMacro. It features a more intuitive user interface, a more powerful KeyMacro Editor and enhanced integration with the Nero Burning ROM. KeyMacro enables you to define customized shortcuts to easily access different media types. You can create Macros for playing, recording and creating audio and video CDs and DVDs. Furthermore, you can use the built-in support for writing to Blu-Ray or DVD-RW discs. You can use the File Menu for handling files. You can also launch applications using the Run Macros window. You can easily share your macros with other users of Nero Burning ROM. Awarded: Type: Author: Date added: Size: 28 KB Views: 269 Downloads: 0 Favorites: 0 This file is required to add the plugin to your Easy Listing. If you select File → New Easy Listing and then click on Browse, this file will be automatically selected and added to the list. Media Player is a Quintessential Media Player plugin that enables you to burn compilations to blank discs. You can not add data to existing CDs using this plugin. Requirements: [?] Quintessential Media Player [?] Nero version 5 KEYMACRO Description: KeyMacro allows you to define custom key combinations for Nero Burning ROM. You can create macros to operate Nero commands or to play and stop multimedia files. KeyMacro is a modern successor of NeroMacro. It features a more intuitive user interface, a more powerful KeyMacro Editor and enhanced integration with the Nero Burning ROM.
