Support to import/export of files to/from Windows file system using the ExtImport tool and Windows registry keys. You can find more info about keymacro and ExtImport at License: MIT Author: Yves Le Maux Published: 2017-10-12 Files: keymacro-1.0.6.zip Windows Audio Editor for macOS is a software tool that allows you to edit audio files and record sounds of any kind. The application is compatible with most of the audio formats. Among the available features, you may edit or generate MP3, AAC, WAV, AIFF, WMA, FLAC and OGG, generate MIDI files or perform waveform analysis on any format. Moreover, the software also allows you to compress audio files, copy files, undo actions and check for duplicate files. Windows Audio Editor for macOS allows you to edit audio files in a safe way, since it does not save the original files. Additionally, you can record and save files as MP3, WMA, OGG or AAC files. Moreover, the software also allows you to compress files or extract any audio file to a file. Windows Audio Editor for macOS allows you to edit audio files or save the new one in any audio format. The software allows you to transpose audio files or merge multiple MP3 audio files into a single file. Furthermore, you can cut and paste audio files, remove silence from any sound file, export MP3 files to any format, export WMA files to an MP3 or convert any audio file to any other. Windows Audio Editor for macOS is designed to work on macOS, as well as on Windows operating systems. You are required to install the software in order to enjoy its features. Moreover, it requires that you have Administrator privileges. Key Features: Compatible with most audio file formats. Record sounds of any kind. Create MIDI files. Edit MP3, AAC, WAV, AIFF, WMA, FLAC and OGG files. Compress audio files. Create any audio file. Extract audio files. Generate MP3, WMA, OGG, AAC or any audio file. Transpose audio files. Merge multiple MP3 audio files into a single one. Cut, paste and copy audio files. Save audio files. Filter silence from audio files. Check for duplicate audio files.
