PlayStation 2 system or an Internet connection. Q: The deprecated "mac" "table" class I am trying to use the 'table' class for the first time in JavaScript (I haven't used it in many years). However, my browser keeps reporting the following error SCRIPT438: Object doesn't support property or method 'table' I'm guessing this is because that class is a browser-specific method. However, using JavaScript - I can't seem to find the function table() (it is not listed in the javascript.d.ts on GitHub). Here is the code I'm using - can anyone see a problem? My Table
