Risen is a fantasy RPG similar to the series Baldur's Gate: Dark Alliance and Neverwinter Nights. The game is set in a world called Norsca where magic runs rampant. After the fall of a tyrannical empire there lies a nation with beautiful land, bold adventurers, exciting tribes and a great heritage. The game has three major races: the human, the dwarfs and the lizardfolk. Each race has their own culture, strongholds and skills. Players will use those skills to explore lands, trade goods and fight monsters. The game is set in three different timescales. In the first one the player is the master of his own destiny with the decision to do good or evil. The second one is an epic story where the player must help a planet of emperors to rise from the smoldering ashes of the ancient empire. The third one is a survival simulator where the player must be ready to face all dangers together with his companions. About The Game Masters of Risen: As they did in The Witcher series, the Risen developers have a story to tell. They are going to reveal all secrets of Risen through a series of game events and quests. This is not a game that is made for cheaters, so the developers will have appropriate measures in place to punish those players who are trying to abuse the game. Still, cheating is not allowed here and it is possible to create a game that is fair, fun to play and rewarding for the player. The graphics and the game controls are among the best of the genre. The battle system is unique. The story telling is equal to the best and the game soundtrack is remarkable. About The Game The Dragon Prince: The Dragon Prince is a port of the World of Warcraft source-code from Blizzard Entertainment. The Dragon Prince has been created for profit to show the world how fast an open source project could be developed. Besides that the Dragon Prince is a demo, in which you get to play one of the four races from the Warcraft universe. About The Game DROMO SAVAGE (Novel): Mareth Godal, who comes from the pimp town of Fethry is an orphan, she lives with her grandmother Hilda in a small village near the river Urder. Mareth's grandmother works as a healer for the local fort, and the peaceful life of a healer never was her thing. Hilda is against the ruling clan, the vampires, and Mareth is not pleased of them either. She tries

- A rotating collection of cards in which your opponents will battle in order to control major locations throughout the Kingdom. Defend your holdings from the collection of your opponents cards with the controller device or from their various forces with the active device. Each Location gives you different gameplay options. Soon all locations will be opened and you will be able to purchase and sell portions of your kingdom to make it the home of your own cards. Then rebuild your forces to defend your new location from your opponents
- Each activity you complete during the day will unlock a multiplayer battle which will put your enemies in your home territory, attack your location while cutting your defenses. In order to repel the attackers, you must defend your location, activate sites from your high level resistance towers which will draw power to your location, build new Resistance Towers and purchase new Grenades and most importantly, purchase your supply of special abilities. Use these special abilities such as the Visionary, that will read cards in your opponents territories to locate them in minutes, the Counter Strike, that shuts down the vision system of all cards on the map, and the Refuel, the ability that will let you maintain an action while you are playing another game.
- Every kill earned during the battle will reward you with gold coins. Spend these gold coins to buy items like Blacksmith & Herbalist
- Some locations will allow you to upgrade your tower to the next level or move to a new location
- Multiplayer mode will not be required to complete the game. However, you will not be able to complete the game without creating your own unique board (which you can do on your own unless you're playing with others)

for "Ghost Rider" I was kicking back and listening to the new The Avengers (for the third time - I have watched it about ten times so I guess it's kinda on my watch list), when I almost dropped it to my head cause I was listening to Ghost Rider's soundtrack, which gives me the same vibe. Actually, I considered turning it off but I got hooked on it and now I'm just listening to it over and over. I also got the same vibe in the track The Icarus Paradox, by Garth Brooks. It's a good track (there's also a very creepy part like the part in Ghost Rider), but perhaps some people listening to it won't get the vibe I'm getting from it. Lets put it like this. (-----) My Soundtrack List for The Avengers You know, as a fan, you know what line of comic you're gonna see and what it's going to be about, sort of. So, as far as this movie, I was expecting some Ghost Rider+Iron Man=ultimate combination. I know Tony doesn't use his tesla device often in the movie, but he gets him in there, him and Captain America and Bruce, for the fight in Ghost Rider's house (with Falcon). His tesla motivates his Black Widow as well. As for the Ghost Rider, he's not that for most people who don't know it. As a comic, he's cool...when combined with Iron Man and just a couple more villains, you might say. But as a standalone vehicle? Not really. I'm not gonna be that harsh to overlook the Ghost Rider music and go back to the movie to watch the scene(s) (mine is almost 23 min. long). But really, as a whole movie, it's not high-quality. The beginning of it could really be thought of as a comic manga, with Venger as Ryder. The ending...yeah, I'd say that's the normal ending. One of the things I liked about it was that the producer, Joe Roth, is friends with my girl, and I should mention that before I present this to you: The actress who plays the Black Widow/yup, she's my girl....and I see her EVERY week. Really, our acquaintanceship has been that way since we've been about 11. I've known her since grade school. You take a young kid in a tiny little hometown in PA,

FALLOUT FROM BEYOND (FFBF) is a first person strategy game that centers around multiple battles between the 3 factions of FallOUT. As the leader of your own faction, you must lead them to the first victory over the forces of evil. Players take on the role of the leader of a faction in an apocalyptic world, playing through unique gameplay scenarios designed to teach them about the ways of FallOUT: The Founding Factions, The Great Apocalypse, Leadership and History. Because the entire game has been designed for modding, it will be 100% customizable with a custom graphic look. Features: - Strategic Gameplay with tactical element - 3 factions - Alternate ways to win - Original worlds with dialogue - Many choices that affect the outcome of the game - Freedom of choice and player character customization - Over 1000 lines of scripted dialogue - Over 300 weapons - Over 200 skills - Over 100 mods - 100 original scenarios - Unique art style - High-quality sound and music FallOUT: The Founding Factions is an RPG with a story that takes place in a world where the destruction is not the end of the story. A place where humans, robots, robots, and machines battle each other for many reasons: because of hatred, love, political manipulation, military expansion, and a combination of all. FallOUT: The Founding Factions consists of 3 factions, each one with its own story. The FallOUT universe is filled with hundreds of different species, and each one has its own reasons for fighting, so the battle for the world is full of bloodshed and destruction. Each faction offers its own unique twist to the traditional RPG system. There are three ways that you can play. You can play it by yourself as the leader of your faction, you can join other factions, or you can invade other factions. One of the most amazing things about FallOUT: The Founding Factions is that it is highly customizable, and you can play it in many different ways depending on what you want to learn. For example, if you want to focus more on the combat, then you can choose to make it as easy as possible or as hard as possible for yourself, and if you want to focus more on the history, then you can find out about the founding of your faction and the fall of the world. FallOUT: The Founding Factions contains many ways to win; every player wants the victor, but not necessarily in the way that they

"The impact of the ancient Maya was mainly felt on the Caribbean islands", claims a new study published in Nature Climate Change. The researchers studied past climate trends in the Caribbean and the Yucatán Peninsula, two of the most important and recent cultural centers located in the northern part of the region. They have also completed a new assessment of the "aquifer recharge" from the Atlantic Ocean, which is one of the main sources of freshwater during the dry season. The results indicate that among other things this recharge explains why the tropical rainforests are located in areas with the greatest rainfall in the region during the wet season. However, there is no significant link between tropical rainforests and ancient societies found in highland centers. "We observed a cooling trend in the Yucatán Peninsula during the past 13,000 years," says Miguel Espejo, senior author of the study and researcher at the Max Planck Institute for the Science of Human History (MPI-SHH). "During this period, the terrestrial carbon dioxide concentration decreased, and weather patterns changed significantly, especially in the Eastern Antilles. In contrast, there has been no trend in Caribbean islands during the past decades, although it is worth noting that only a few sites have been studied. In any event, the total water flow to the Caribbean was estimated to be very high, which does not allow us to correlate carbon dioxide concentration trends with a lack of rain." A similar study was already published in 2012 that showed an important decrease in net rainfall of the Caribbean, but only for the Last Glacial Maximum (LGM). The researchers did not take into account the slight decrease in land area observed over the past 10,000 years, according to another study with 17-years of data. Even so, the fall was apparently stronger than described in recent years. These variations are important when considering that the LGM is one of the most important climate changes experienced by human societies. "Not everyone agrees with the idea that in the past there was a lack of rainfall in the region," says Jennifer Clipper
