### **Features Key:**

An unprecedented style of RPG. In the Lands Between, frequently change the appearance of the various worlds and dungeons, to attract the attention of those who find them and attract the strength of all of the adventurers who emerge. You can enjoy the adventure without worrying about how to proceed, or quickly find a way to the next task.

Beautiful graphics. Conceptual art, which is a first for Neptunia games, makes you feel as if you were transporting to the world of art. Specially developed by Neverland Studio, the graphics have a state-of-the-art feel. The gameplay that combines action with strategy. This is a fantasy action RPG that allows you to enjoy battling against enemies while using various magic items.

Conversation with friends and in-game random events. Chat with other adventurers, and earn rewards by discussing the game and cooperating. You

---

can help other adventurers while maintaining your own character, and obtain items you can use in combat.

Offline play that supports up to 16 players. As you play alone, you can still exchange battle results directly with other players even if they aren't online.
