Sisbot - A Social Network/Chatbot for Schools In today's world, in the education sector, many teachers use any means to educate and reach the target groups to lead the students better and help them on achieving th... In today's world, in the education sector, many teachers use any means to educate and reach the target groups to lead the students better and help them on achieving their goals because in this competitive world, they are not wise, they will go for such a platform as it can solve the problems we have in our education system. There have been many faculty's response to this chatbot such as; "This is a good start but, there are many more things to be done and to be better", "This is very helpful for teachers as they will not be bored by the lectures", "I like how it will give them a weekly summary", "Will it be beneficial for them to do projects and reports, even exams" and many more. One thing most of the teachers agree is that the chatbot has been created in a simple and easy way and will become more effective in the future. Struggling to find more life purpose? Are you looking for a job that serves your passion and contributes positively to the society? Then you should consider: b7e8fdf5c8
