New features also include an all-new "Benchmark Editor" which allows fans to compare and test their performance as different players using the FIFA Ultimate Team mode. Tekken 7 is due to be released on 27th September and will feature the all-new cyberpunk theme, adding plenty of new gameplay elements for the franchise, more modes including three-on-three online versus modes and an all-new Story Mode. The official Ultimate Fighting Championship (UFC) videogame franchise returns in UFC 3. The fighting game takes place in the new season of the Ultimate Fight Championship (UFC) and is the next installment in the series with the main objective being a world championship tournament. The videogame follows on the events of the season two of the UFC, which began airing in June 2011. The game is being developed by Yuke's and published by EA Sports. The game looks pretty interesting, featuring fresh new fighters such as Jon Jones, Lyoto Machida and Alexander Gustafsson. The game is due for release in December 2011. Available for Xbox 360, PlayStation 3, PlayStation Vita, Wii U, Xbox, PC. 2011 brought the return of Heavyweight heavyweight champion, Brock Lesnar to the UFC. The Professional Wrestler (PW) has made appearances before, but his first bout in the MMA arena is something that he will never forget. The first UFC event that Brock hosted was UFC 103, when he took on Shane Carwin. The bout took place at Staples Center in Los Angeles, California, and it marked his MMA debut. The event was mainly just supposed to be a to showcase the new Heavyweight champion, but Carwin would more than hold his own against Lesnar and earned a huge win for the UFC. The match proved that Brock was strong, fast, and aggressive. When Lesnar returned to the UFC, he was brought in as the Heavyweight champion and fought in the Heavyweight division. In the Octagon, he was faced with many challenges, including his former teammates at the WWE. The first major bout was a walk in the park for the champion as he faced off against Frank Mir. In this match, Brock just showed that he is still the same Heavyweight champion that he was before. He knocked Mir down with a quick and powerful right hand to the face, and after a fight, he left the ring with his hand raised in victory.

What's new:

- **Sling Shot** - This chip in a player's foot will shoot an on-screen ball across the pitch to a specific area, where it can ricochet off anything from posts to defenders to the back of their own net. It can also be used to move the player forward in attack.
- **Nitro Charge** - Finish a move quickly with the jump-in-to-the-air ability, controlled with the right analogue stick.
- **New agent Movement** - For customisation purposes, player movements can now be hindered like 'Assist', 'Whistle', 'Throw' and 'Crouch'. The player movement is displayed on the player's radar, and when changing the direction of movement, it switches direction to suit the movement of the ball and also the player chasing it.
- **Goalkeeper Zones** - We've simplified Keeper usage to one of two methods of play, either keep perfect arc shots with dive and wall-spin on the feet, or intercept long range crosses, to have a more natural feel while playing goalkeeper.
- **Usability** - New Defrost controls have been implemented, to develop the flow and movement feel, instead of pressing L and R simultaneously.
- **Trailer Attack** - Replay attack now occurs when cameras are closed, adding further action to the trailer
- **Brand New Away Kit** - Choose a new kit or create your own away kit to defend the new brand of the beautiful game! Away kits are designed to aid your gameplay depending on the instructions.
