Language: English on release date. 3D-HD-
Rip is based on FFmpeg which supports
many formats and provides an up-to-date
reference on supported and unsupported
formats. 0.33 is stable build and only
tracks the major developments in FFmpeg,
including some critical fixes. These are
fixed in 0.34.0 but will be lost if you
update to 0.35.0 or later, hence this build
is strictly only for those who do not install
0.35.0 or later. You can try it if you want,
but after the beta period there is no
support. . Portable HDD 1TB 2.7.0.0
Portable (Portable HDD) - 1TB Read More
Info on Portable Ultra-Sonic Cleaner

Portable Ultrasonic Cleaner The portable ultrasonic cleaner uses supersonic waves (also known as oscillatory waves or vibrations). The term ultrasonic is a portmanteau of the words "ultra" and "sonic". Ultrasonic cleaners are designed to clean by cavitation, i.e. small bubbles that form and collapse near the surface of the object being cleaned. Ultrasonic technology was first discovered in the 1920s by Dr. Maria Theodosia Koutsonikou, a Greek physicist. Portable Battery Charger Portable ultrasonic cleaner is available with at most 10 hours running time. It is shipped with battery charger to power on the cleaner. The battery lasts up to 6 months. *Please visit my site for more info about portable ultrasonic cleaner and photo link for ultrasonic cleaner. Portable Infra-Red Lamp Portable infra-red lamp provided with the portable ultrasonic cleaner is very useful for those
