CADE PRIME is a survival-action puzzle platform game following a cyborg cop named CADE PRIME, whose memory core was stolen by the Neuro-ruthers. He can send data from his brain to his Android shell and his environment, for example by building platforms above water bodies or shooting those that were there before. If you touch a lake, the platform will rise and then you can cross it. There are several different worlds, each with their own story and challenge. Each Level gets more challenging, featuring various sub-levels with new objects. After finishing each Level you will have the opportunity to progress further in the game, unlocking access to a new World. The World BONUS provides you two new levels to complete. The player has to be careful: The Anchor Games are maliciously created viruses in the form of video game developers and are "run" by a power-hungry AI. If you touch a screen or walk into a wall, it will be destroyed and you will have to start all over again at the beginning of the level. You can save your game when you need, on any platforms or services you want. *** World 1 Bonus level *** A DARKER ENVIRONMENT. You will be on a dystopian landscape with giant flesh-eating robots and other terrifying creatures. You are trying to reach an exit, but in your way you will find deadly traps and enemies. The level requires you to solve several puzzles and, in the end, you will need to avoid a large flesh-eating robot that will eat you. If You touch a wall, it will be destroyed and you will have to start all over again at the beginning of the level. A world even darker than the previous one! *** World 2 Bonus level *** A TEENAGE BREAKTHROUGH You are the young genius who invented an anti-gravity platform, meant to help you cut through the garbage underground. Your invention was stolen from You by a mad scientist. Now You must take revenge. The Architect is a clone of the main character designed to become a living anti-gravity creation of sorts. His anti-gravity power is shown by his small black antennae on his head that emit an anti-gravity field. He has special laser-eyes that allow him to detect and avoid objects. After finishing the Level you will have the opportunity to

What is Hockey? Hockey is a contact sport played between two teams of skaters. The game of hockey is typically divided into periods where each team has a designated "goat" that must be scored on. If a team can score a goal in the opposing team's "goat" period, then the goals are added up and the "goat" is subtracted from their team's total. On an empty ice surface, the team with the higher total score wins. Why Play Game "Beer Hockey"? I set out to make the most in depth and most interactive experience on mobile based on being Beer league Hockey. As a real full time NHL Hockey player and being current and previous team captain for the NHL's Los Angeles Kings I wanted to make sure the experience was special and enjoyable to the fans! It would be a way for fans to get together and play with their friends and family any time of day. The addition of really good music can really be enjoyed any game! So with this in mind, I set out to make an experience that is close to what a real Beer league experience is and we are really proud of the end result. How Do I Play Beer League Hockey? To start, you have to create and join your team. Our website makes this quick and easy. Then you will start in a Free Practice period of 5 games. These 5 games will test your ability to play the game correctly. As you play, the same skill level strategy will be placed on you. You will need to work at it, but you will be given the right strategies and tips from the coaching staff to build the right team for you! At the end of the Practice period, the computer will seed your team with every other player in the league. You will then be given a Playoff Season with 9 games you will play. The Playoff Season starts on Saturday February 24th and ends on Saturday April 7th. This will run as a full Dynamic Season, as if it is a real hockey season. You will get the same team chemistry, trust your teammates, and will grow together as a team. Our update schedule for the season is a little crazy (work is work), but the best we can do right now is twice a month. To start off with, we will have a big update to the Franchise, Arcade, and Passing Modes on the first or second Sunday of each month. At the same time, we will have a big update to the League and League Pool creation and completion. We are REALLY

What's new in Odyssey: Altar Of Norax:

- A Dragon-centered, dragon-centric tale that starts to end... Happy Halloween! Happy Halloween! It's time for trick-or-treating and everything associated with how we celebrate this holiday. I've already gone trick-or-treating with my friend Andy when we were at college, but this year's Halloween has a few treats in store for me... don't worry, it's not because I'm near the end of Project: Black Osprey. ;-) A Kraken is aback The I of the Dragon is now in its third iteration - it's been so long since this blog was created. Fortunately, much has transpired in the Dragon's Tale over the past three years. One of the most noteworthy achievements in the past few years has been the release of my novel, The Dragon's Tale Book One. It's been a dream of mine to write a book. I've wanted to get this story out to the world and, with the help of my illustrator, Amy Mulligan, The Dragon's Tale Book One has been released. We've done our best to make the story as true to the tale as possible, and I think we've done a good job. David, Cailan and Genevieve Since the blog has been inactive for so long, I suppose it's time to let you into my secret project... As you know, since I wrote the first novel, the Dragon's Tale, I have always intended to write a sequel. Two years ago, I finally got the courage to start writing a sequel for the Dragon's Tale. I wrote The Saga of Dragons, The Hero's War. At the same time, I've also been working on The Dragon's Tale Book Two - The Dragon Knight. Besides writing two novels, I've been quite busy with work. During the same period of time, I've also been doing a lot of research for my new book, The Dragon Knight. You can find out more about this novel by visiting my website... The Dragon Knight project is gradually coming to an end, and I finally have some time (even though there are still several days left) to decide if I want to go through with publishing the novel. I'm about 80% through the novel, and
