MSDN document that get the activation key, you cannot activate it...[Unusual presentation of granulomatosis with polyangiitis (GPA)].

Granulomatosis with polyangiitis (GPA) is a rare systemic vasculitis. The aim of our study is to report our personal experience of granulomatosis with polyangiitis. We retrospectively analyzed the charts

of patients with granulomatosis with polyangiitis, diagnosed between 2004 and 2006. We have collected clinical, laboratory and radiological data and analyzed the effects of treatment. Forty-six patients were studied (70% women). The mean age was 51 years (22 to 87 years). Arthritis was present in 76% of patients. Renal involvement was present in 70% of cases with a creatininemia greater than 2.5 mg/dl in 76% of cases. Bronchiolitis and micro-nephritic syndrome were also frequent in our
