Game Features ●About Rise and Play The game features an immersive world that seamlessly transitions between a vast open field and a large dungeon. With a superb sound design and lighting effects that impact the player's mood, the game creates an immersive and addictive gameplay experience. ♦Customize your character Feel free to freely combine the weapons and armor that you equip. and increase your strength to become a strong warrior, or master magic. ●Battle System 3 action games The battle system makes it easy to strategically enjoy the game. For example, there are two kinds of basic attacks, an element attack and a physical attack. The element attack allows you to trigger different attacks by using a different type of magic. The element attack involves a diverse range of elements, such as fire, wind, and darkness. You can use the elemental attack to make your enemy's weaknesses stand out. Also, the various types of spells, such as the high-damage elemental attack, are available. The basic attack involves your physical strength. In contrast, the element attack focuses on a single element and gives enemies critical damage. Also, enemies use skills and skills that are linked to the specific elements, so they can attack even when you attack with your elemental attack. ●Online Play There are several types of online and asynchronous online play. In addition to online play, you can connect with other players. Connecting with other players gives you the opportunity to form an alliance with them. In the online cooperative mode, you and your alliance can form a team and attack dungeons together. Also, you can now enjoy your own campaigns that are similar to those of the other players. bff6bb2d33

TURN-BASED ACTION COMBAT. Immerse yourself in turn-based combat. Battle against various monsters that have been defeated, and further enhance your combat abilities to pursue the Elden Lord campaign! • Competitive Battle System Elden Ring is a competitive battle system that is even more adrenaline-pumping than ARPGs. There are 3 difficulty levels (Easy, Normal, Hard), each having its own grid system. Monsters have randomized levels, so a certain pattern of battle may be repeated as you fight them. Players equip a "skill", represented by a skill tree, and a "weapon" to attack with. While monsters have fixed skills, their experience points and equipment change over time, making each monster different. Players fight by utilizing their movement and attack, as well as by using high-level skills. • Style of Battle Players will be given many "Styles of Battle" and the system for switching them is available for a single-player campaign. These are

**ed, 13 Nov 2018 10:43:09 +0000Experiences of children with sickle anemia in Uganda--first qualitative study from a deprived rural area. present the findings on the qualitative study conducted with 16 out of 25 children in the first community-based study on anemia in children in Adjumani District, Uganda, a rural district with high prevalence of sickle cell anemia in Central Uganda. The vulnerable children were recruited through night clubs, the children with the sickle disease by attending the health center and snowballing techniques. Interviews were performed in the local language and digitally recorded and transcribed. Data analysis through the qualitative content analysis approach and dual coding by the authors produced the final description. Two main themes emerged. First, the children got used to the presence of medical staff through following their medical care routine. Second, the treatment of the child in relation to the tradition was portrayed. To our knowledge this is the first qualitative study on anemia and sickle cell anemia in Uganda, which highlights the unmet need of sickle cell anemia among the study population. The findings underline the need to shift the medical perspective to focus on the development of appropriate health tools and therapeutic approaches and**
