The touch-screen game controls and visuals, are inspired by the surreal and humorous game, Superbrothers: Sword & Sworcery EP. The game is made by the same designers, "Superbrothers: Sword & Sworcery EP". If you have played that game or seen the trailers, you know what we mean! The game's humor, music and innovative gameplay definitely carries that same spirit and essence. In addition to that "Mother of all Games" status, this game will have a lot of DLC contents in future updates. About features: - Large open world - Host of different missions - A lot of content to get into - 5 different characters and cities - An open ended story with different game end conditions Survival Horror is a very difficult genre to master, but also very fun! It has a well defined beat-em-up genre, but that genre doesn't make it any less terrifying. The game isn't about slaying hordes of scary things, it's about exploring your fear as you run from the things you encounter and from the things that will haunt your dreams. About The Game After the tragedy of your beloved leader, somebody has to carry the torch before it ignites the apocalyptic prairies. The game is set in a post-apocalyptic environment, where the game consists of a third person perspective, in which you are the chosen one. The game has a steampunk atmosphere, using elements of RPG, FPS, and Action genre elements. The game has received a lot of attention for using Steam so players can connect and exchange their levels, more than any other game on the store. Gameplay Survival Horror is a game where you can explore and save an ash world, where life is usually cheap. The first thing you will notice is the music, a mixture of old sounds and a scary atmosphere. In the game you will use a slow and heavy custom powered gun, which will turn you into the walking nightmare, who fights off zombie like creatures, big bosses, and other horrors. All of that, while you are exploring the world in an unrelenting fury. About The Developer Creator and game designer, Gabe Croushore has been working on game concept, story design and world-building for almost 5 years, before it's release. He has an artistic and absurdly versatile mind, which created almost all the art, and sound of the game. He is a man of many years of video game c9d1549cdd

Cave Quest 2 gameplay is in my opinion, the most enjoyable one yet. This time around the game is set in a medieval world, just like the previous games. You play as Isador who is exploring his dungeons in search of treasure to buy new items. You can collect the items you collect, purchase new items, feed your cat and run and jump in order to survive. The Cat feeder is a new feature this time around, if you feed your cat too many times in one day he will take ill. Do you have what it takes to find all the items, collect the coins and avoid the dark stuff? Gameplay is fun, challenging and very addictive.9.6/10 Silver AdonisAmazing match 3 game with a sidekick. Despite all of the great stuff the game offers it is in my opinion just a solid match 3 title that you could just grab for a buck or two and spend some time with. I was able to really enjoy the game a lot, mainly because of the cat. Gameplay: Gameplay is solid, if you get this game you will get some good match 3 fun. There are 12 levels to beat and at the end of every level a surprise thing will pop up for you. The artwork is gorgeous and it was absolutely beautiful. There is only one item that really draws you in that is the cat, he is super cute and so darn cuddly. Storyline: The storyline is pretty much what it has always been, a mine tunnel filled with nasty things. You are looking to find treasure and avoid some creepy stuff. Some of the creepy things you will see include: o great big gooey eyeballs o giant brainy demons o big ugly moles o giant gargoyles The puzzles are not a huge problem, but some of them do take a while to work through. Final Thoughts: I give it a 9/10, there is not a lot of variety and it is a match 3 game but it has some cool things going for it. For a super cheap price of $0.99 (yes, that is a whole 99 cents for it), you can make yourself some decent play time and that is a great thing. A great small fun game that you should grab a copy of. This game really is worth it and I am so happy to have it in the store
